Bombs

May I support "Pop-em-off" in his condemnation of ~~the~~ ^{the} War Organisation of Industry. SAT DT issue 9 June ~~and suggestion of~~ ^{and suggestion of} bombs would hasten their dissolution, ~~we~~ ^{unfortunates.} could then ~~seek~~ ^{seek} ~~to~~ ^{for permission to build} the Local Municipal & Shires ^{whose} ~~powers~~ ^{rights} have been fetched by the W.O.I. Sufferers.

To the Editor (Daily Telegraph) Sydney
Dear Sir

As another unfortunate victim of the War O.I. may I support (Pop-em-off) in his Letterette issued in the DT on 9 June.

Have been corresponding with this dept for 2 1/2 years & am no further advanced, their stock replies are all used up & the latest reply ~~was to~~ ^{was to} watch

You are advised to note any announcements of any official character in the press relating to building restrictions being eased.

All applications to build are dealt with according to the merits of the application.

Yours faithfully
A.C. Boddy

Merit

As another unfortunate victim of Department of War Organisation of Industry, may I support "Pop-em-off," who has been stalled off repeatedly: Have been corresponding with this department for two and a half years, and am no farther advanced. Their stock replies are all used up. The latest is: "You are advised to note any announcement of an official character in the Press, relating to building restrictions being eased. All applications to build are dealt with according to the merits of the application.—"Another Sufferer."

Letterettes in

Guns

May I suggest the issuing of tommy-guns to prospective home-builders to enable them to ward off our so-called War Organisation of Industry, who are doing all in their power to sabotage these homeless unfortunates?—"Pop-em Off."

[A.C. BODDY]
